Dear Sir:

Responsive to the Restriction Requirement mailed January 4, 2008, the Applicants elect the enzymatic activity of tissue factor. Applicants further elect the species from claim 2 which has  $R_1$  = hydrogen,  $R_2$  = n-butyl, and  $R_3$  = a D-phenylalanine-proline-arginine (D-Phe-Pro-Arg) group.

The claims reading on the election of tissue factor are claims 1-14.

The claims reading on the species where  $R_1$  = hydrogen,  $R_2$  = n-butyl, and  $R_3$  = a D-phenylalanine-proline-arginine group are 2 and 16.

The Applicants invite the Examiner to contact the Applicants' undersigned representative at (312) 913-2136 if the Examiner believes that this would expedite prosecution of this application.

Respectfully submitted,
